## NOTICE

This type of license will only qualify an individual to do Electrical work in the State of Tennessee. This does not extend to helpers or assistants of any kind. The LLE license holder is the only person authorized to obtain a permit. All personnel doing electrical work where an LLE has obtained the permit must be licensed in their own right. City of Franklin inspectors may ask for a license if they suspect that the State's contracting laws are not being followed, and any infractions noted will be reported to the State Licensing Board for action and cited to court as the law allows. This may also result in Stop Work order at the site or revocation of permits if a permit has been obtained by incorrectly or fraudulently filling out a permit application. Additionally, any electrical worker hired by an Electrical Contractor and paid with a 1099 must also be individually licensed at a minimum as an LLE.
