MEMORANDUM

September 20, 2010

TO: Board of Mayor and Aldermen

FROM: Eric S. Stuckey, City Administrator 
Russell Truell, Assistant City Administrator / CFO
Eric Gardner, Director of Engineering
Kevin Comstock, ITS Project Manager
Brian Wilcox, Purchasing Manager

SUBJECT: Consideration of bid award to National Data & Surveying Services, Inc. of Beverly Hills, CA, in the amount of \$14,650 for purchase of vehicular traffic data collection contract services for the Traffic Operations Division of the Engineering Department (Purchasing Office Procurement Solicitation No. 2011-003; \$20,000.00 budgeted in 110-82560-41610 for FY 2011)

Purpose

The purpose of this procurement is to purchase vehicular traffic annual data collection contract services for fiscal year 2011. Each year, the City's Traffic Operations Center collects peak hour turning movement counts for about one-third of the City's signalized intersections plus bi-directional average daily totals (ADT) counts at various locations. This data is used to adjust traffic signal timing.

Background

The Engineering Department Traffic Operations Division budget for fiscal year 2011 allocates \$20,000 out of the General Fund for the purchase of traffic data collection contract services. The specified scope of work this fiscal year includes peak hour turning movement counts for thirty-one (31) signalized intersections and 24-hour bi-directional ADT (tube) counts at five (5) locations.

Financial Impact

The City published on September 2, 2010 a Notice to Bidders in the *Williamson Herald* for vehicular traffic data collection contract services. In addition, bid documents were sent on or about the same date directly to fifteen (15) potential bidders known or thought to be interested in this solicitation. Bids from eight (8) vendors were publicly opened at the bid opening held on September 16, 2010. A tabulation of the bids received for this solicitation is attached. The apparent lowest, most responsive and responsible bid, from National Data & Surveying Services, Inc. of Beverly Hills, CA, is in the amount of \$14,650, for the specified scope of work. This bid was identified because it is the lowest bid that meets or exceeds the City's intention as expressed and implied by the City's specifications as well as the instructions, terms and conditions pertaining to this procurement solicitation. The apparent lowest best bid amount is \$5,350 (27%) under budget.

It is worth noting that one bid, from Tennessee Traffic, LLC of Brentwood, was submitted for \$14,205.00 which is \$445.00 less than the bid referenced above. However, as the bidder noted, it is unable to provide required three (3) references for similar work completed within the last twelve months. Instead, since "Tennessee Traffic, LLC was founded in 2009 and does not yet have the references requested by the City of Franklin for this solicitation," she provides "both professional and personal references that can attest to my ability to complete this project in a timely and professional manner." Because the City's instructions as to references were firm rather than optional ("Bidders must provide three references for similar work completed within the last twelve months"), staff recommends this bid be considered deficient in this regard.

MEMORANDUM

Options

In accordance with the bid documents, the City reserves the right to reject any and all bids.

Recommendation

Staff recommends that the City accept the apparent lowest best bid, from National Data & Surveying Services, Inc. of Beverly Hills, CA, in the amount of \$14,650, for the specified scope of work. Purchasing Manager Brian Wilcox is of the opinion that the prepared specifications as distributed allowed for competition among multiple vendors, and that the staff recommendation appears to be made in a fair and impartial manner based upon the bids received.
